2013 OPA Midyear Meeting Program Learning Objectives

ACPE #0129-0000-13-077-L01-P
Drug Interactions: A Comprehensive Review
Teresa Hoffman, R.Ph., PharmD, CDE, CLS,BCPS, BCACP
At the completion of this activity, the participant will be able to:
1. explain the differences between pharmacodynamic and pharmacokinetic interactions;
2. identify medications at high risk for clinically significant interactions;
3. identify a patient's specific risk factor(s) for drug interactions; and
4. describe the role of the CYP 450 system in pharmacokinetic drug interactions.

ACPE #0129-0000-13-078-L04-P
Serving the Underserved
Alexa Sevin, R.Ph., PharmD and Holly Fahey, R.Ph., PharmD
At the completion of this activity, the participant will be able to:
1. describe poverty in the United States;
2. discuss types of poverty and the challenges those in poverty face;
3. explain the mental model of poverty;
4. discuss health care for the poor and models of care to address challenges; and
5. utilize methods to identify health care resources for the poor in his/her area.

ACPE #0129-0000-13-079-L03-P
2013 Review of Ohio Pharmacy Law
Donald Sullivan, R.Ph., PhD
At the completion of this activity, the participant will be able to:
1. describe the legal requirements when dispensing controlled substances for weight reduction;
2. identify the DEA requirements for electronic controlled substance prescriptions;
3. describe common issues that occur in practice when dispensing controlled substances;
4. discuss the requirements of pharmacists regarding the use of OARRS;
5. discuss the legal requirements of pharmacists related to patient counseling and DUR; and
6. briefly discuss the legal requirements when selling syringes.

ACPE #0129-0000-13-080-L01-P
Multiple Sclerosis: Update on Current and Emerging Therapies
Richard W. Dudley, R.Ph., PhD
At the completion of this activity, the participant will be able to:
1. discuss the etiological factors contributing the development of multiple sclerosis (MS);
2. describe the pathophysiological features of MS;
3. apply current approaches to treatment highlighting drug mechanism, dose, route, adverse effect(s) and cost to patient care;
4. review emerging approaches treatment highlighting drug mechanism, dose, route, adverse effect(s) and cost; and
5. practice patient-specific medication therapy management and effective patient counseling.

ACPE #0129-0000-13-081-L04-P
Starting MTM Services: From Idea Inception to Implementation

Chet Kaczor, R.Ph., PharmD, MBA and Emily Middleton, R.Ph., PharmD
At the completion of this activity, the participant will be able to:
1. identify important factors to consider when starting Medication Therapy Management (MTM) services;
2. describe the components of a business plan to start MTM services; and
3. identify training opportunities and resources available for pharmacists to perform MTM services.

ACPE #0129-0000-13-082-L01-P
Choosing the Right Pill: Oral Contraceptive Basics
Ashley Sweaney, R.Ph., PharmD
At the completion of this activity, the participant will be able to:
1. discuss the pharmacology of oral contraceptives (OCs);
2. evaluate available OC products;
3. characterize which medications should be used in various patient populations; and
4. identify important counseling points surrounding oral contraceptives.

ACPE #0129-0000-13-083-L01-P
Opioids in Chronic, Non-terminal Pain
Amber Hartman, R.Ph., PharmD
At the completion of this activity, the participant will be able to:
1. outline the evidence for and against chronic opioid therapy for non-terminal pain; and
2. discuss recently approved guidelines for prescribing opioids for chronic, non-terminal pain including the Morphine Equivalent Daily Dose (MED).
