

Must See:

A technology-lover's dream home! With a computer and gaming area on the second floor, docking stations and hookups throughout, this property will appeal to families who enjoy staying "plugged in."

- The beauty of this home's architecture lies in the **traditional American design** with French country influences.
- An impressive first floor includes a raised-ceiling entry foyer, private study, formal dining room and **cafe-style kitchen** with custom cabinetry and high-end appliances, and an oversized great room with picturesque views.
- This home features technology throughout: **docking stations and custom gaming areas**, and high-end energy-efficient appliances.
- **Owner's private retreat** includes tiered ceilings, an entertainment area, balcony, and a spa-style bathroom with oversized shower, spa, dual vanities, and separate dressing areas.

\$598,900

**4 bedrooms,
4 1/2 baths**

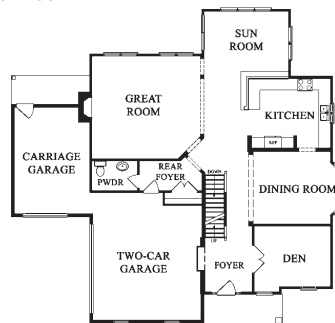

3-car garage

**Square footage:
4,590**
