Must See:

This year's BIA Foundation House features an exceptionally functional floor plan with a dual-station computer room just off the gourmet kitchen and a mud room with lockers and cubbies to help with organization.

- The **floor plan** includes space where the entire family can enjoy time together with plenty of space to spread out if desired.
- Stainless-steel appliances throughout the **gourmet kitchen**, which also includes beautiful two-toned cabinetry.
- The **finished lower level** features a wet bar and large entertainment area.
- The large **bonus room** on the second floor will make a great play area for the kids and comes with a sink area for arts and crafts clean up.
- Vacation in your own backyard with **three outdoor living environments** including a fire pit, water features, and fresh herb garden.
