Ohio Fire Chief Credentialing Program

The Ohio Fire Chiefs' Association (OFCA) and the Ohio Fire & Emergency Services Foundation (OF&ESF) have identified the need to further enhance the professionalism of chief fire officers throughout the State of Ohio by the establishment of a uniform credentialing program. The goal of the program is to ensure a strong degree of accountability. The Credentialing Program sets forth the goals needed for chief fire officers to establish a higher degree of professionalism so that fire chiefs may be better prepared to serve their department, their community, and other organizations. The goal is to promote the professional development of the chief fire officer in Ohio and to assist these chiefs in their daily operations, management, and leadership.

Credentialed participants will be required to renew their credentials every three years. The OFCA, through this program, has attempted to establish occupational education, fire service related training, and experience criteria relevant to the position of fire chief. This process provides an equal opportunity for the volunteer, paid-on-call, or full-time applicant to meet the minimum criteria for achieving the Ohio Fire Chief credential.

By participation in this program, an applicant agrees to abide by a Mission Statement and Code of Professional Conduct. The Credentialing Review Committee will review all applications and make a recommendation to the OFCA Board of Directors. The OFCA Board of Directors will retain the final approval of all credentialing applications.
