Accreditation & Designation Statements

This activity was planned and implemented in accordance with the Essential Areas and Policies of the Ohio State Medical Association (OSMA) through the joint sponsorship of Mercy St. Charles Hospital and Mercy St. Vincent Medical Center. Mercy St. Charles Hospital is accredited by the Ohio State Medical Association (OSMA) to provide continuing medical education for physicians.

Mercy St. Charles Hospital designates this live activity for a maximum of 6.25 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Mercy St. Vincent Medical Center is accredited by the American Osteopathic Association to provide AOA Category 1 Credit. This activity has been approved for 6.00 AOA Category 1-A Credits.

The Ohio Board of Nursing will accept, at face value, the hours awarded for an educational activity that has been approved for CE, provided it was approved by a nationally accredited system of CE approval.

Application for CME credit has been made to the American Academy of Family Physicians. Determination of credit is pending.

Target Audience

Family physicians, internists, pediatricians, obstetricians, surgeons, mid-level providers, nurses, residents, medical students and nursing students.

Purpose

The 2011 Inaugural Primary Care Refresher has been developed by Mercy St. Vincent Medical Center in conjunction with the Mercy Family Medicine Department to provide the target audience with evidence based, interactive continuing medical education covering a broad range of conditions and diagnoses that present to the primary care office.

Objectives

- Review differential diagnosis for breast cancer.
- Discuss evaluation and work up for breast cancer in the primary care office.
- Identify guidelines for making a surgical referral for breast cancer.
- Discuss prevalence of sleep apnea.
- Review the societal, social and legal impact of sleep apnea.
- Describe new DOT laws.
- Recognize comorbid conditions of sleep apnea.
- Identify what lesions should be biopsied.
- Compare and contrast benign and malignant lesions.
- Identify important information to include for the pathologist, or situations in which the pathologist should be contacted.
- List the Joint Principles of the Patient-Centered Medical Home (PCMH).
- Describe the role of EHR Meaningful use in the NCQA recognition process for PCMH.
- Understand the 6 “must pass” criteria for NCQA PCMH recognition.
- Review differential diagnosis of common ophthalmologic disorders.
- Identify best office practices – scheduling, billing, staffing.
- Discuss the management challenges and modalities of psychiatric conditions in the primary care office.

- Review nutritional, pharmaceutical and surgical options for the management of the overweight/obese patient.
- Review the medical/legal considerations surrounding the non-compliant patient.
- Describe the work up, treatment and referral process for the diagnosis of hernia.
- Review the subjective and objective examination to establish disability.
- Describe the disability determination process.
- Discuss methods of addressing the non-disabled patient who is seeking disability.
- Review the differential diagnosis for vasculitis.
- Describe the evaluation and work-up for vasculitis.
- Discuss cases of vasculitis.
- Discuss evaluation and work-up for diabetes mellitus.
- Compare and contrast current treatment options for diabetes.
- Review methods for addressing non-compliance in the diabetic patient.
