

2012 OPA Midyear Meeting Program Learning Objectives

ACPE #0129-0000-12-067-L01-P

Anemia—Focus on Assessment, Prevention and Treatment

Andrew M. Roecker, R.Ph., PharmD, BCPS, Professor and Chair, Department of Pharmacy Practice, Ohio Northern University

At the completion of this activity, the participant will be able to:

1. Compare and contrast the different etiologies of anemia;
2. Describe signs and symptoms, including laboratory values, of anemia that can help differentiate the specific diagnosis;
3. Explain various prevention and treatment strategies for anemia, in general and based on a specific etiology; and
4. Discuss population differences in the diagnosis, treatment, and resolution of anemia.

ACPE #0129-0000-12-068-L04-P

Hidden Costs in Health Care Reimbursement Can Pay for MTM Services

Marc A. Sweeney, R.Ph., PharmD, Dean and Professor of Pharmacy Practice; and Rebecca Grant, Coordinator of Experiential Programs, Cedarville University

At the completion of this activity, the participant will be able to:

1. Briefly describe the business of health care;
2. Describe the business of third party administrators (TPAs) and pharmacy benefits management companies (PBMs);
3. Discuss strategies to re-allocate resources for medication therapy management (MTM) services; and
4. Review the value and impact of MTM programs.

ACPE #0129-0000-12-069-L01-P

Overview of Atypical Antipsychotics

Michelle Maguire, R.Ph, PharmD, Ambulatory Care/Academic Practice Resident, The Ohio State University College of Pharmacy

At the completion of this activity, the participant will be able to:

1. Review the prevalence, morbidity and mortality of schizophrenia, bipolar disorder and major depressive disorders;
2. Present general principles of atypical antipsychotics, including mechanism of action, efficacy, side effects, drug interactions and monitoring requirements;
3. Evaluate case-based scenarios to illustrate within-class nuances with regard to efficacy, patient counseling requirements, side effect management, and other special considerations;
4. Discuss the impact of stigma and lack of access on the quality and delivery of care to patients with mental illness and emphasize the role of pharmacist-provided patient care to those with behavioral health disorders.

ACPE #0129-0000-12-070-L04-P

Pharmacist Workforce: 2012 Trends

Donald L. Bennett, R.Ph., MBA, Director of Experiential Programs, The Ohio State University College of Pharmacy

At the completion of this activity, the participant will be able to:

1. Discuss the impact of new colleges of pharmacy and expanded class sizes of established programs on the pharmacist workforce;
2. Identify current trends in part time and full time pharmacist employment;
3. List strategies that employers have used to adjust the pharmacist workforce: and
4. List the factors that have changed the pharmacist's dispensing role.

ACPE #0129-0000-12-071-L01-P

Preconception Care: Theory and Content

Natalie DiPietro, R.Ph., PharmD, MPH, Assistant Professor of Pharmacy Practice, Ohio Northern University

At the completion of this activity, the participant will be able to:

1. Describe the current patient need for preconception care;
2. List the 14 evidence-based recommendations for preconception care; and
3. Identify roles for pharmacists in providing preconception services and patient education.

ACPE #0129-0000-12-072-L04-P

Get Hooked on Smoking Cessation Counseling

Kelly Hiteshew, R.Ph., PharmD, Assistant Professor of Pharmacy Practice; and Tracy Frame, R.Ph., PharmD, Assistant Professor of Pharmacy Practice, Cedarville University

At the completion of this activity, the participant will be able to:

1. Describe the roles of pharmacists in smoking cessation based on the literature;
2. Identify opportunities and challenges in each of these roles/practice settings;
3. Analyze the resources available to overcome these challenges; and
4. Create a smoking cessation policy and procedure based on a given practice setting.

ACPE #0129-0000-12-073-L03-P

Drug Diversion: Pharmacists' Responsibility

Michael Moné, R.Ph., BSP, JD, FAPhA, Vice President, Supply Chain Integrity & Senior Regulatory Counsel Quality & Regulatory Affairs, Cardinal Health, Inc.

At the completion of this activity, the participant will be able to:

- 1) Demonstrate an understanding of federal and state controlled substances regulations;
- 2) Explain the impact of state and federal regulations on the distribution of controlled substances;
- 3) Describe methodologies for meeting the regulatory requirements for controlled substances; and
- 4) Identify ways of detecting and preventing the diversion of controlled substances.
