Presented by:

Ohio Pharmacists
Foundation
and
Ohio Society of
Health-System
Pharmacists

The Ohio Pharmacists Foundation will provide one contact hour (60 minutes) of pharmacy technician education credit for each program. There is no pharmacist continuing education associated with this program.

Program Descriptions

TECHnicalities of Transitions of Care

Brigid Long, R.Ph., PharmD, The Kroger Company

Effective patient transitions of care are critical to preventing hospital readmission and ensuring proper disease state management. During this session, attendees will receive an overview of costs and other factors associated with poor transitions of care. The role of the pharmacy technician in assisting patients during care transitions will be included.

Depression Overview

Brittany Schmidt, R.Ph., PharmD, OSU Internal Medicine Clinic
This session will provide an overview of depression, including prevalence, causes, symptoms, and diagnosis. Treatment of depression, including both medication management and non-medication interventions, will also be discussed.

Pharmacy Law Update: Spring 2013

Joann Predina, R.Ph., MBA, Compliance Specialist, Ohio State Board of Pharmacy Our speaker will provide the latest information impacting Ohio pharmacy law and rules, which apply to various practice settings. Get up-to-date on requirements and exams to qualify technicians, NECC violations, illegal doctor office purchases of compounded drugs, and more.

More than just Insulin: A Guide to Diabetes Care

Kevin Fuschetto, R.Ph., PharmD, BCACP, MTM Coordinator, Giant Eagle With 18.8 million people in the U.S. diagnosed with diabetes, and another 7 million undiagnosed, community pharmacies are positioned to make an impact on the self-care of diabetes. This program will describe the numerous products used for the management of diabetes, along with current guidelines and recommendations for their use.

Compounding: Individualized Medications for Each Patient

Ashley Sweaney, R.Ph., PharmD, Uptown Pharmacy/Ohio Pharmacists Association This session will provide an overview of compounded medications for the treatment of menopause and thyroid dysfunction, along with a review of each disease state. Furthermore, commonly prescribed veterinary medications and their uses will be discussed.

Serving the Underserved

Holly Fahey, R.Ph., PharmD and Alexa Sevin, R.Ph., PharmD, Charitable Pharmacy/Columbus Free Clinic/

This session will provide an overview of patients in poverty, free clinics, charitable pharmacies, and medication assistance options for underserved patients. Drug repository programs and manufacturer patient assistance programs will be discussed. Methods to find health care resources for these patients will also be presented.

Demystifying Dr. Oz

Susan Nguyen, R.Ph., PharmD, OSU Clinical Partners

A selected overview of some commonly used dietary herbs and supplements and those made popular by The Dr. Oz show (including fish oils, ginkgo biloba, raspberry ketones, and green coffee bean extract) will be presented. Learn what these products are used for and the evidence behind their recommendations.
