Communicate, Collaborate and Coordinate to Improve Medication Adherence

Find out how you can improve medication adherence and safety for your patients by joining us for this webinar, the first of a three-part series on medication adherence. The April event will provide practical advice on how successful collaboration between hospitals and community pharmacists can positively impact medication adherence and reduce readmission rates by improving transitions of care and reducing adverse drug events.

Speakers

Joseph Dula, PharmD, BCPS

Regional Director of Clinical Services, Pharmacy Systems, Inc.

Larry Schieber, RPh

Pharmacist/Owner, Schieber Family Pharmacy

Objectives

- Explain the role of the pharmacist in promoting medication adherence through effective patient counseling
- Discuss the potential impact of pharmacist's activity on patient experience survey scores and readmission rates.
- Discuss methods to enhance communication between inpatient and community pharmacists, as a means to improve transitions of care.

Who should attend

- Pharmacists
- Physicians and Medical Office Staff
- Nurses, Case Managers, Discharge Planners, Care Transition Professionals
- Health Care Administrators
- Quality Improvement Professionals

Continuing education credits for nurses are pending. For information about approval status for contact hours, contact Liz Simpson at 1.800.385.5080, ext. 5788. For approved programs, Ohio KePRO requires completion of 100% of the program in order to receive continuing education credits. Ohio KePRO (OLN-0011-P) is approved as a provider of continuing nursing education by the Ohio Board of Nursing through the approver unit at the Ohio League for Nursing (OBN-006-92) ; provider unit status is valid through April 30, 2013.

This program is co-sponsored by the Ohio Pharmacists Association.

There is no pharmacist CE credit associated with this program.
