

Correction to 2011 Congregational Giving

Lord of Life Lutheran Church (Columbus/Worthington) giving was incorrect on the report distributed at the 2012 Assembly. The Mission Support giving and total giving should have been reported as \$45,175.46. The original report showed an amount intended to be mission support by Lord of Life in the “other” column. Lord of Life also asked why funds they sent directly to the ELCA Vision for Mission Fund, are not included in the report.

The purpose of the report is to account for funds received by Southern Ohio Synod from congregations for mission support and other ministries. Many congregations support various ELCA and local ministries by sending funds directly to those ministries; such amounts are not reflected in reports issued by the Synod. The Synod can't report on funds it has not handled and is generally not aware of these gifts.
