Peter is the Cleveland Regional Manager and Geotechnical Lead for many ODOT projects at Resource International, Inc (RII) and has been with RII for 3 years.

He received his Master and Ph.D. from the University of Cincinnati.

His educational and work backgrounds are primarily in Geotechnical and Foundation Engineering.

In Peter's free time he enjoys golfing, gardening and sightseeing.

Peter has been involved with ACEC Ohio for over 9 years and become a Northeast Ohio Chapter board member in 2014. Peter is now the Chapter Chair and is excited to have the opportunity to serve the engineering community.

“ACEC Ohio provides a bridge between government institutions and engineering companies and also assist member companies in improving their business management practices” Lee stated about ACEC Ohio.

Peter enjoys networking opportunities to meet a wide array of engineers or professionals working on all types of construction and environmental improvement projects.
