

# Strengthening the Nation's Public Health Infrastructure and Workforce: A National Perspective

---

---

José T. Montero, MD, MHCDS  
Director, Office of Recipients Support and Coordination  
National Center for State, Tribes, Local, and Territorial Public Health Infrastructure and Workforce

September 14, 2023

## PLANNER & SPEAKER DISCLOSURES

In accordance with the ACCME Standards for Integrity and Independence in Accredited Continuing Education and the University of Cincinnati policy, all faculty, planning committee members, and other individuals, who are in a position to control content, are required to disclose *all relationships with ineligible companies (commercial interests) within the last 24 months*. All educational materials are reviewed for fair balance, scientific objectivity, and levels of evidence. The ACCME requires us to disqualify from involvement in the planning and implementation of accredited continuing education any individuals (1) who refuse to provide this information or (2) whose conflicts of interests cannot be mitigated.

*\*Companies that are ineligible to be accredited in the ACCME System (ineligible companies) are those whose primary business is producing, marketing, selling, re-selling, or distributing healthcare products used by or on patients.*

**All relevant relationships have been mitigated.**

*The following disclosures were made:*

**Planning Committee Members**

Name	Relationship
Anne Goon, MS, RD, LD, Fall Planning Committee Chair Beth E. Bickford, MS, RN, Executive Director, AOHC Jerry Bingham, MPH, REHS Julie Chaya, PhD, MEd, MA Susan Crapes, MD, Wally Burden, BS, MA Stephen Feagins, MD, MBA, FACP Corey Hamilton, MS, RD, LD Carol Howdyshell, MSM, RN Julie Hoover, BA, AOHC Jason Orcena, DrPH, MA, Mysheika W. Roberts, MD, MPH, Ben Robison, MPH, Denise Ross, BSBA, AOHC Joan Seidel, MA, BSN, RN, CIC, Becky Thomas, MD Krista Wasowski, MSW, MPH James Watkins, MPH, REHS	Nothing to Disclose for any individuals on the Fall Conference Planning Committee.

# Overview of the Public Health Infrastructure Center

# CDC Moving Forward

## CDC Moving Forward Core Areas of Improvement

- Share Scientific Findings and Data Faster
- Translate Science into Practical, Easy to Understand Policy
- Prioritize Public Health Communications
- Develop a Diverse Workforce Prepared for Future Emergencies – CDC and Nationwide
- Promote Results-based Partnerships
- Enhance Laboratory Science and Quality
- Integrate Health Equity
- Modernize Data

# CDC Moving Forward

**Public Health Infrastructure Center** is one of the center pieces of CDC Moving Forward. The new center:

- **Creates** a hub of information, support, resources, and engagement for with local health departments and public health partners
- **Focuses** on the big picture of public health and work to strengthen every part of the nation's vast and complex public health network

# Public Health Infrastructure Center Overview

## Mission

To improve public health outcomes by strengthening the public health infrastructure and workforce of the United States.

Public Health Infrastructure is made up of the **people, services, and systems** needed to promote and protect health in every U.S. community.

# Primary Functions

Jurisdictional  
Support

Division of  
Jurisdictional  
Support

Partnerships &  
Technical  
Assistance

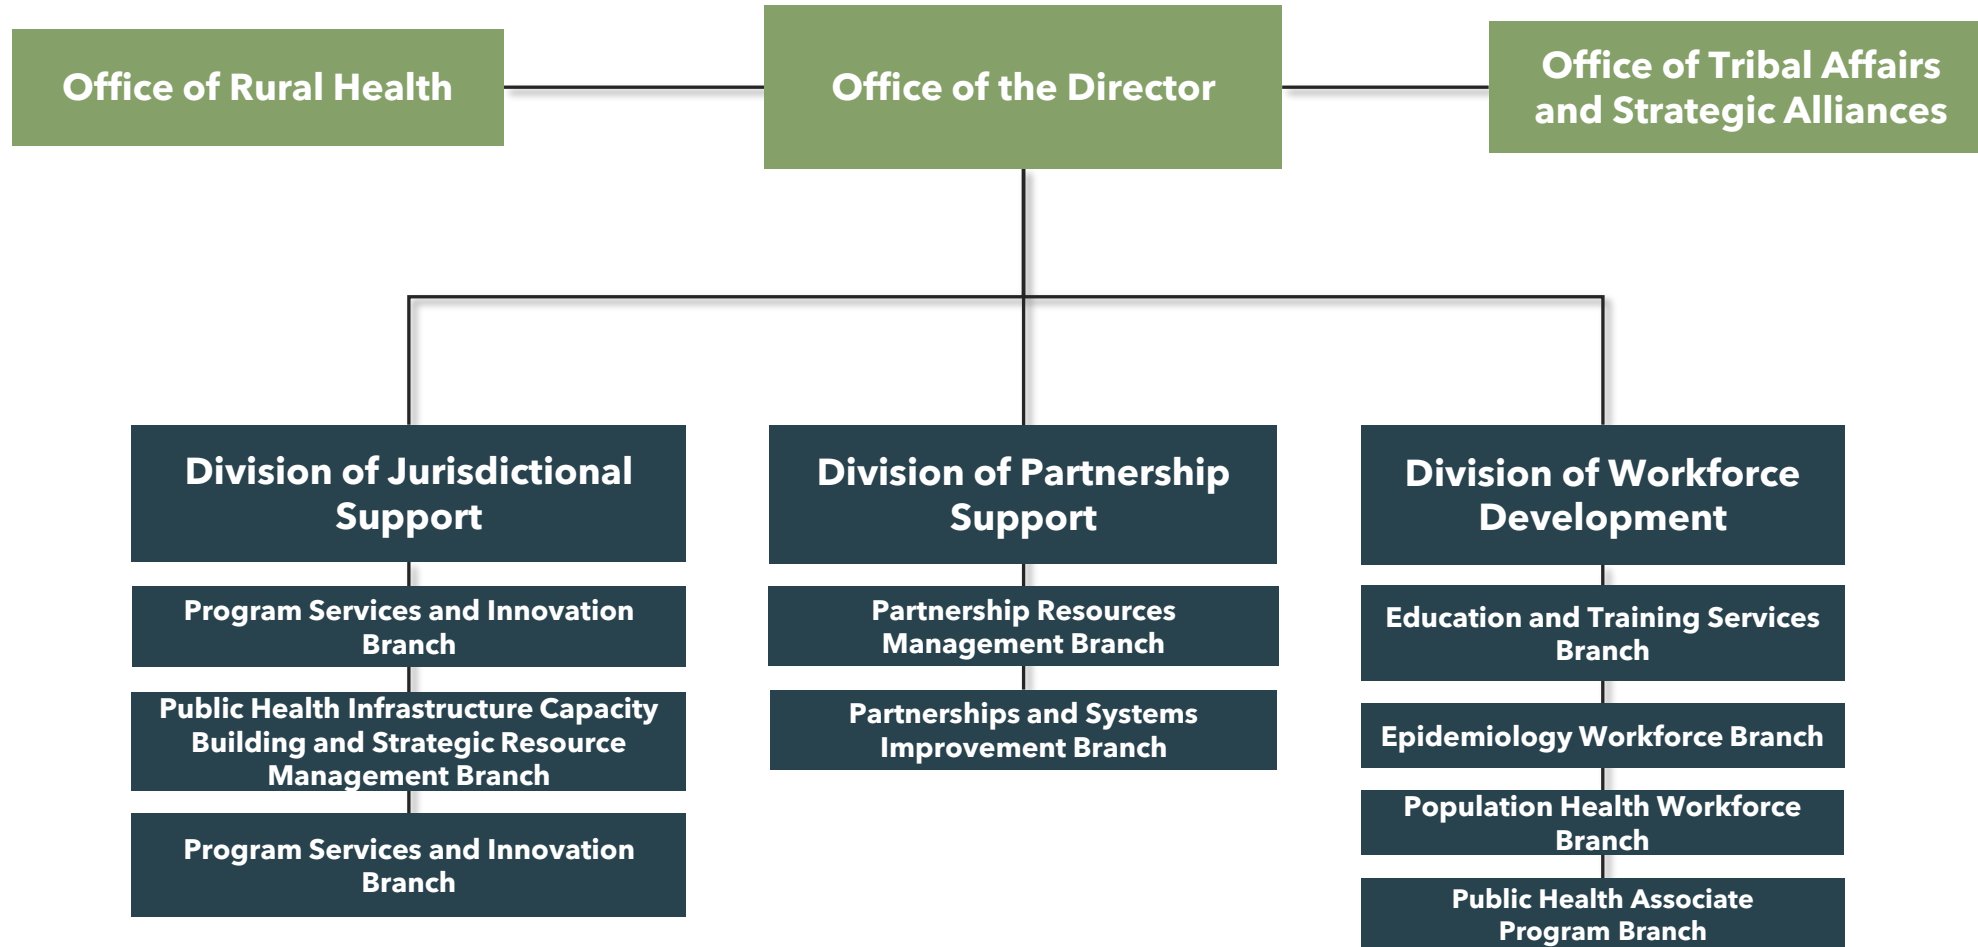

Division of  
Partnership  
Support

Workforce  
Development

# Organizational Structure

2

# Partnerships to Advance Public Health

# Shared Stewardship

- Public health in the U.S. is comprised of a huge range of governments, agencies, organizations, and private entities, each playing a part in protecting the health of the American people.
- CDC's role in this system must be one of stewardship:
  - Listening to the governments and entities that make up that system
  - Delivering the resources, information, and support they need to protect their people and communities

# Partnerships with States, Tribes, Localities, and Territories

## **CDC's Role:**

- Help state and local health departments make the work they do stronger and more effective
- Get the resources and workforce states and cities need to build the health departments that will best serve their communities
- Get the science, data, and info to health officials to stand up strong programs and systems

## **How we support states by/with:**

- Reducing Burdens
- Site Visits
- Field staff
- Information Sharing
- Prioritizing Results-based partnerships

3

# Public Health Workforce

# CDC's Commitment to Workforce Development

## Decades of Underinvestment

*Over the past decade, the public health workforce has shrunk by approximately 56,000 positions primarily due to funding issues.*

–Trust for America's Health (2020)

*The U.S. needs to hire a minimum of **80,000** more full-time equivalents (FTEs) in state and local governmental public health departments—**an increase of 80 percent**—to provide adequate infrastructure and minimum public health services to the nation.*

–Staffing Up: Determining Public Health Workforce Levels Needed to Serve the Nation (2021)

# Strengthening U.S. Public Health Infrastructure, Workforce, and Data Systems Grant

107 jurisdictions received funding

**50**

States

**22**

Cities  
(incl. DC)

**27**

Counties

**5**

Territories

**3**

Freely  
Associated  
States

## Workforce

Recruit, retain, support, and train the public health workforce

*\$3 Billion*

## Foundational Capabilities

Strengthen systems, processes, and policies

*\$140 Million*

## Data Modernization

Deploy scalable, flexible, and sustainable technologies

*\$545 Million  
to 64 of 107 recipients*

## Budget period start:

December 1, 2022

## Period of performance:

5 years/60 months

## 3 Partners funded with Component B:

Training, evaluation, and coordination support for grantees \$65 Million and an additional \$90 Million to support Data Modernization

## Partners Funded:

# Ohio Activities: Public Health Infrastructure Grant

- More than 59% of Ohio's Workforce funding awarded to 113 Local Health Departments and Public Health Associations
- February 2023: Ohio Department of Health used Public Health Infrastructure Grant funding to provide surge staffing, including epidemiologists and other key public health personnel to support the East Palestine train derailment response and recovery efforts.
- Ohio Department of Health also sent seven full-time personnel funded by PHIG to work onsite in East Palestine regularly while other personnel provided support intermittently.

# Other Funding Mechanisms

## Preventive Health and Health Services Block Grant

- Fiscal Year 2022 Funding: \$145,900,982
- 60 Recipients

- Annual Basic: **\$6,742,538**
- Sexual Violence Prevention: **\$246,328**
- Total Award: **\$6,988,866**

# Preventive Health and Health Services Block Grant

- The Ohio Department of Health's Creating Healthy Communities (CHC) program: Used block grant funds to increase opportunities for physical activity and improve access to and affordability of healthy food in 23 Ohio counties.
- The goal of Creating Healthy Communities is to increase the capacity of local public health departments to implement healthy eating and physical activity policy, systems, and environmental changes through authentic community engagement.
- CHC has been successful at increasing opportunities for physical activities and improving access to and affordability of healthy food in Ohio.
- CHC program impacted more than two million Ohioans and leveraged more than \$6 million to support sustainable changes in 2021.

# Other Funding Mechanisms

## National Initiative to Address COVID-19 Health Disparities in High-Risk and Underserved Populations

- Fiscal Year 2021 Funding: \$247,469,178
- Project end date: May 31, 2023 (no-cost extension to May 31, 2024)
- 108 Recipients

- Ohio Department of Health **Total Award Amount: \$31,011,053**
- City of Columbus Center for Public Health **Total Award Amount: \$3,396,978**

# Workforce Development

The Public Health Infrastructure Center's Division of Workforce Development provides leadership for **recruiting, training, developing, and retaining** the nation's public health workforce.

## Prospective public health professionals:

Establish and advance fellowship, internship, and training opportunities that are both multidisciplinary and interdisciplinary.

## Current public health professionals:

Offer and promote quality training opportunities from CDC, other federal agencies, and federally funded partners.

## Health departments and public health partners:

Provide capacity building/technical assistance, support/lead efforts to build the evidence-base for public health workforce planning/development, collaborate with partners.

## CDC programs:

Ensure efforts are coordinated and strategic agency-wide.

- 1,000 courses developed by CDC program, grantees and other funded partners

4

# Data Modernization Initiative Funding

# Data Modernization Initiative Funding

Success of Data Modernization Initiatives depend on ensuring that state and local health departments have the resources and support to ***modernize, administer, and maintain*** their public health data infrastructure.

Public Health Infrastructure Grant and the  
Epidemiology and Laboratory Capacity Grant  
**\$874 million** in new investments

# Data Modernization Initiative Funding

## Public Health Infrastructure Grant

- **\$545M to 64 jurisdictions**
  - \$345M: Core DMI activities
  - \$200M: Laboratory data exchange activities
- **\$90M to partners**

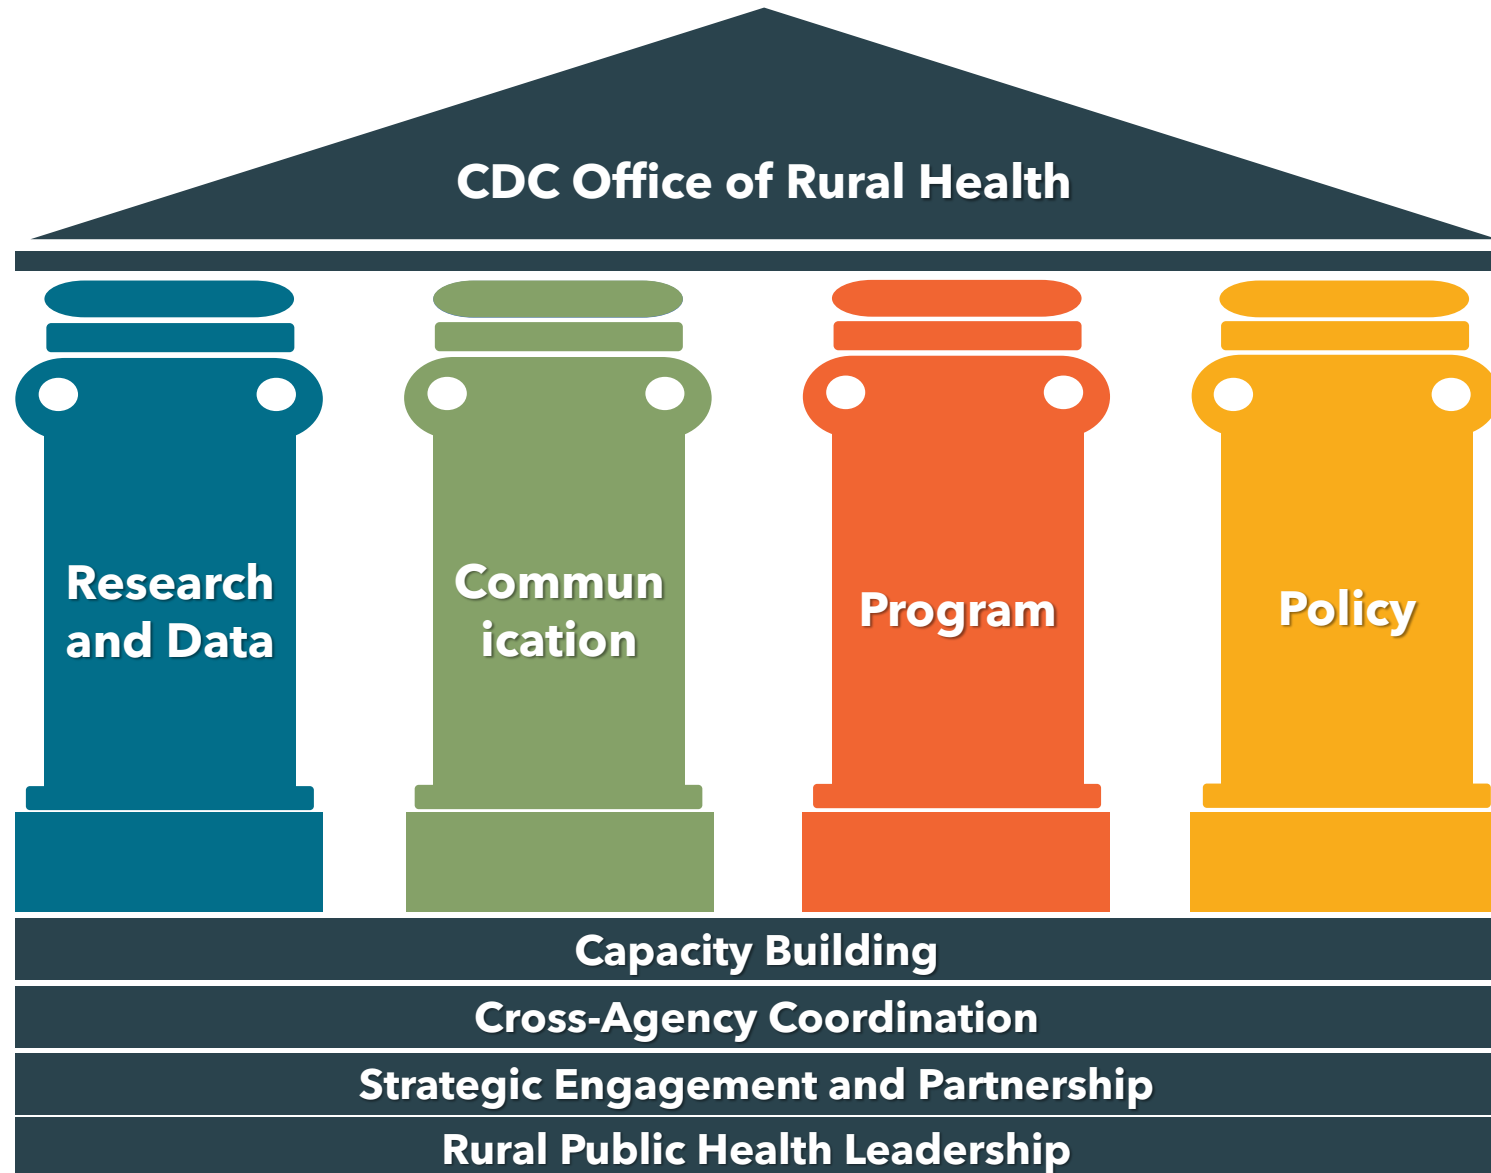

## Epidemiology and Laboratory Capacity Grant (ELC)

- **\$239M**
- Funds for:
  - Electronic case reporting and vital statistics modernization
  - Laboratory data exchange
  - Improvements to core data systems and data exchange capabilities at PH departments/laboratories
