

JOIN CASA TO HELP GROW YOUR BUSINESS

CASA's Auxiliary membership allows you to partner with hundreds of potential clients in the ASC industry. Our members actively seek reliable businesses when choosing ASC-related goods and services.

CASA Serves California Ambulatory Surgery Centers

A Great Return on Your Investment – CASA is the largest state association with over 400 members, yet our membership fees are among the lowest in the nation. That means your investment is less than \$3.00 per ASC contact.

Vendor & Sponsor Opportunities – CASA's Annual Conference & Exhibits attracts key decision makers and allows you to be an integral part of this highly acclaimed event. CASA auxiliary members receive discounted rates on booth fees. Additional sponsorship opportunities are also available throughout the year.

Membership Access – Our membership provides access to a large audience. Auxiliary members have access to our invaluable member list, a resource not easily accessible on your own. Members may request this membership list once, per year. As a member you will receive CASA's e-newsletter communications and have access to the CASA online community.

Partners & Advertising Opportunities – Our facility members refer to CASA Partners as a trusted resource. Partners can have their organization listed on our website under the category of their choice and linked to their website. Exclusive advertising opportunities are also available for a low cost on our website.
