

Join CASA and let us help you grow your business.

How can CASA membership benefit your business?

As an Auxiliary Member of CASA, you receive numerous benefits included in your \$775 annual fee - *a fee among the lowest in ASC associations:*

- A **\$200 discount** on your exhibitor booth at our annual conference, along with our attendee list
- Your company is listed on the **Partners Page** of our website with a direct link to your company's website
- CASA's Membership List once-per-year upon request with over 300 member ASC facilities

You also receive:

- Highlighting as a **Preferred Partner** on our Partners Page when you offer CASA Members a discount of any kind on your services
- Discounted registration fees to our educational seminars & sessions, as well as networking and sponsorship opportunities
- Early notification of issues affecting California ASCs through our newsletter to keep you informed of changes that can have an impact on your business

Our members look to the CASA Partners Page when seeking ASC-related goods and services.

As a trusted leader among ASCs, members feel confident doing business with our partners. By becoming an Auxiliary member of CASA you help us to become more influential not only in the ASC community, but in the legislative branches as well. As we further our mission to serve as the proactive leader in California our success can equal your success.

It is only with a strong voice, working together that we can assure the best for our industry, patients and partners.

“ I love this organization! The programs are top-notch for education and the attendees come ready to learn, even from the vendors/exhibitors. **Because my primary market is Ambulatory Surgery Centers, having access to this many leaders from ASCs in California has been invaluable to my company's growth.**

The staff of CASA are the best out there. They are always accessible and available to help.”

Gregory Tertes, R.Ph.
