

Since 1940, the County Engineers Association of Ohio has worked to unify its members in providing the highest quality transportation, drainage, surveying and land record keeping services. From the safe and efficient movement of people, goods and services to continuing land development needs, CEAO strives to construct solutions for many challenges to Ohio's local infrastructure.

**Become a Supporting Member!**

*One of CEAO's greatest priorities is to encourage communication between County Engineers and related industries.*

*We believe that these relationships stimulate positive dialogue and mutual benefits for all parties. The Supporting Membership program was designed to reach out to individuals, firms, and corporations with an interest in local, county, and state transportation systems.*

# YOUR IMPACT

**“We love our supporting members. They understand us and they get what we do. That’s why we like working with them.”**

*Brion Rhodes, P.E., P.S.  
Allen County Engineer*

# OUR IMPACT

**“CEAO not only looks out for statewide issues impacting our 88 counties, but they provide meaningful local support as a member when I have an issue and ask for input. They are one of Cuyahoga County’s largest funding sources and this benefits all of our commuters.”**

*Dave Ray, P.E., P.S.  
Cuyahoga County Engineer*
