Can Someone Lawfully Video in a Public Space?

- Generally, if in a public space, an individual has the ability to photograph/video anything in plain view.
- What about audio?
- Ohio is a one-party state, but...consent is not required where speaker does not have an ordinary expectation of privacy.

Can Someone Lawfully Video in a Public Space?

12

Legal Considerations

- Freedom of the press includes the right to record video and audio.
 - *Am. Civil Liberties Union of IL v. Alvarez*, No. 11-1286 (7th Cir. 2012).
The act of *making* an audio or audiovisual recording is necessarily included within the First Amendment's guarantee of speech and press rights.
 - *Lovell v. City of Griffin*, 303 U.S. 444 (1938).
The press comprehends every sort of publication which affords a vehicle of information and opinion.

13

Legal Considerations

- *Branzburg v. Hayes*, 408 U.S. 665 (1972).
 - The First Amendment does not provide the press a right of special access to information not otherwise available to the public, generally.
- *Glik v. Cunniffe*, No. 10-1764 (1st Cir. 2011).
 - Recording police and other government officials in the discharge of their duties is explicitly allowed.

How to Respond?

How to Prepare

- Know how to recognize auditors
- Ensure public areas of building are clearly marked
- Educate your employees
- Establish guidelines
- Ensure police personnel are prepared for out-of-building encounters

- Consult with your attorney
- Know the law and their rights
- When in doubt...contact law enforcement

Gov communicator taking the bait and getting frustrated

First Amendment Auditor posting your reaction to YouTube

15

How to Respond?

How to Respond

- Don't overreact- acknowledge their right to record
- Be prepared to be provoked
 - Repeated questions
 - Not satisfied with answers
 - Profanity
- Know when you need help from a worker/supervisor
- Keep it short – continue business as usual
- Boring is good
- Understand anything that you do may end up on YouTube or in a 1st Amendment Lawsuit

16

Are There Any Limitations?

- Cannot interfere/disrupt services
- Block access
- Secure areas where video recording is prohibited
- No greater access to facility
- Establish policies
- Limit business in public areas
