Contract Highlights

Nalco programs are designed to extend HVAC equipment asset life, maintain operational efficiency of heating and cooling equipment and reduce total costs which include utilities systems water cost, chiller electricity use, and steam of hot water boiler natural gas use.

Additionally Nalco offers AquaPathTM specialty services in Water Safety to help sites meet ASHRAE 188 standards for reducing the risk of waterborne pathogens in domestic water systems, cooling towers, and water features. The offerings include: Water Safety plan survey, report and on-going action planning, testing for waterborne pathogens such as Legionella, pseudomonas and mycobacterium, emergency remediation of contaminated water systems, cooling towers or water features, Point of Use sterilizing grade filters for faucets and shower heads in critical care areas, and ongoing monitoring services.

A third category is Nalco's Coil Flo program of cleaning AHU coils to improve airflow and heating /cooling response in patient rooms. Studies have shown that sites will reduce AHU fan motor power consumption (variable speed fans) by \$.10-\$.15 sq. ft. by cleaning AHU coils properly and keeping them clean.

Update Highlights

Intalere is pleased to announce that effective August 1, 2017, this agreement has been renegotiated through February 28, 2018. Pricing has not changed and will remain firm for the duration of the agreement.
