## **AFFIDAVIT OF INTENT**

This notice is to certify that I (the “affiant”) understand and will abide by the following:

### **1. TERMS OF USE**

The materials provided by IME consist of inert examples of explosives and/or detonator exemplars, and are to be used for training and demonstration only. They do not contain any explosive or energetic material in any form and are completely inert. They have been constructed to represent real product in weight and general appearance including markings. They are marked to indicate the inert nature of the material.

Inert training products are distributed through IME only to authorized persons or groups who have a legitimate need for them. In all cases, a record is kept of all shipments, and the recipient is responsible for the safe transport, storage, and use and disposal of these products.

### **2. CONDITIONAL POSSESSION**

The materials, when not in use for their intended purpose, must be properly secured to limit access only to persons needing access for the intended operational purpose. Access to inert products shall be controlled to prevent their misuse and/or misidentification.

Materials must not be redistributed to persons outside of the affiant’s organization or to persons otherwise unauthorized to utilize them for the intended purpose stated above. The markings which indicate the inert nature of the product will not be removed or effaced. If, for any reason, the markings are effaced, damaged, deteriorated, or otherwise obscured or lost while in the affiant’s possession, the affiant will re-mark/re-label the affected item(s) to ensure they are identified as inert materials.

Upon receipt of the requested materials, the affiant will respond in writing to confirm receipt of the products provided. The affiant agrees to assume all risks and liability for the use and/or misuse of the materials by any person(s).

The affiant agrees to indemnify, defend, and hold harmless IME from and against any loss, cost, or damage of any kind (including reasonable outside attorneys' fees) to the extent arising out of its breach of this Application and Affidavit, and/or its negligence or willful misconduct."

**3. DESTRUCTION OR RETURN**

The provided materials must be destroyed beyond recognition or returned to IME when no longer needed. When degraded beyond being able to be recognized as inert the materials should be destroyed. The affiant will ensure that the materials are properly marked as inert prior to destruction and/or transportation. The transportation and/or disposal of the materials must be in accordance with all existing regulations and good practices.

In witness whereof, this \_\_\_\_\_ day of \_\_\_\_\_ ,

\_\_\_\_\_  
(Printed Name of Applicant/Affiant)
