

Safety Message of the Day for IMEA Members

This year marks the 22nd Anniversary of the Terrorist Attack on the U.S.

It's been more than two decades since 9/11. Honor and commemorate the sacrifices made that day by remembering the heroes, armed forces, first responders, and countless others' acts of service to defend our nation's freedom.

On the September 11 National Day of Service and Remembrance, Americans of all ages and backgrounds are again invited to join and lead community service projects to honor the lives and service of those we lost on September 11. Cross divides, differences, and ideologies to serve with neighbors and strangers alike to build important bridges in your communities.

Unsafe Acts Safety Message

Unsafe acts are responsible for the majority of workplace incidents that result in injuries or property loss. According to NIOSH an estimated 80 out of 100 people who are involved in an incident are at fault for it. Because of this fact, companies spend much of their effort in making their workplaces safer by addressing the unsafe acts and praising safe behaviors of their employees.

here is a magnitude of reasons behind why unsafe acts occur. Despite what the reason may be for the unsafe act, one thing is for sure-injuries will occur over time if they continue to take place. Unsafe acts are the root of the majority of injuries on the job, and when paired with unsafe conditions, it is likely someone will be injured. All too often, it is the person who is responsible for the unsafe act that is injured. Even worse is when a bystander is injured due to the unsafe actions of another person.

Discussion point:

What is an example of a common unsafe act?
