

## Safety Message of the Day for IMEA Members

### Slip Hazards Safety Message

Slips, trips, and falls are one of the leading causes of injuries and fatalities in the workplace. According to OSHA, slip, trip, and fall incidents cause 15% of all accidental deaths and are second only to motor vehicle incidents as a cause of fatalities on the job. These types of incidents can result in life-changing injuries to the employees who suffer them. These incidents are also very costly, reports indicate that the average slip and fall injury costs \$20,000.

NOTE: We (Indiana Municipals) just had a serious head injury that could be life altering and could have been prevented.
