

Safety Message of the Day for IMEA Members

Slips, Trips, and Falls Safety Message

Slips, trips, and falls are one of the leading causes of injuries and fatalities in the workplace. According to OSHA, slip, trip, and fall incidents cause 15% of all accidental deaths and are second only to motor vehicle incidents as a cause of fatalities on the job. These types of incidents can result in life-changing injuries to the employees who suffer them.

The lineman that had the 120V contact recently was reaching for something he dropped, lost his balance and fell in to a secondary pedestal.
