

Safety Message of the Day for IMEA Members

Ignoring Safe Driving Practices to and from Work Safety Message

This is not just specific to electrical linemen, but the entire workplace environment at large. Although linemen face many electrical hazards while at work, they also face some hazards while getting to and from their place of work. Many employees are unaware that driving to work is part of their job. Too many accidents occur on the road because workers are in a hurry, complacent, or preoccupied. Employees must keep their focus on the road and follow traffic safety laws to avoid driving accidents. It's not worth hurrying to work by driving recklessly and risking injury to yourself and others.
