2:00 - 3:00pm	Do We Have a Check Fraud Crisis?
	David Rathke – Item Processing, Lockbox and Content Management Solution Architect (FIS)
	Since the introduction of EMV chips in 2014/2015, the banking industry has experienced a massive increase in check fraud.
	According to many experts, check fraud levels have grown three times from pre-pandemic levels, with reports indicating checks
2.00 - 3.00pm	as the payment experiencing the most fraud. Fraudsters are using all the tools in their belt, from washing checks to robbing mail
	carriers and mailboxes for checks to sell on the dark web. Banks must take a proactive approach, moving from one step behind
	to one step ahead of the fraudsters. Learn how some banks are developing new strategies and deploying innovative
	technologies to curb the check fraud trend.
3:00 - 4:00pm	Why Instant, Why Now?
	Todd Koehn – Vice President, Faster Payments Solutions (Bankers' Bank)
