CREATIVE CONTENT

Use pictures, videos and show your brand personality. Content doesn't have to be overproduced or even expensive. Customers want to see what you're up to and what you offer in an authentic and genuine way. You can capture great content using only your smartphone!

FREQUENCY

- As soon as you know: Announce on your channels that you'll be exhibiting at MAREXPO, share the show dates, booth number and tag our channels.
- Post once every few weeks about your process and development of your booth ... or what current and/or new products and services you offer.
- A month out from the show, start posting multiple times a week to start building excitement and gaining attention. Create games, have giveaways and contests for customers and prospects.
- The week leading up to the show, post one-to-three times a day, especially as you're loading in and getting ready to kick-off your MAREXPO experience.
- Your time at MAREXPO can get very busy, so be sure to designate someone at the show to post for you during your stay. Take pictures of your booth, video your demos, capture customer engagement and post onto your Instagram and Facebook story.
- After MAREXPO is over, don't forget to continue posting about your experience, what you learned and how you can't wait for the following year.
