This program is a Stemline sponsored promotional program. Stemline may need to report transfers of value related to meals provided to you at this program as required by applicable, national, territorial, and/or state transparency laws or regulations. In most cases, the information will be published.

Federal government employees as well as physicians licensed in certain states, including but not limited to, Minnesota and Vermont, have regulations or policies that limit the value or prohibit the receipt of meals at pharmaceutical company sponsored events. You are accountable for understanding such restrictions and complying with them, and Stemline may restrict your participation in a meal and/or the program. You may choose to opt out of a meal. Additionally, please note that we are unable to accommodate spouses or guests at this event.
