Annual Genitourinary Malignancies Symposium

Saturday, November 21, 2026
7:30 a.m. – 3:00 p.m.

The Ann Arbor Sheraton
3200 Boardwalk, Ann Arbor 48108

Free to attend, but registration is required.

Target Audience

This symposium is intended for physicians, physicians in training (residents/fellows), medical students, pharmacists, and advanced practice providers in the field of genitourinary cancers.

Description with Expected Results

The Michigan Medicine Rogel Cancer Center is an NCI-designated comprehensive cancer center with a history of excellence in cancer care, education, and research. The Mission of the Rogel Cancer Center is to reduce the burden of cancer and advance health equity through transdisciplinary collaboration in research, education, patient care and community outreach.

Expected Results

- Understand diagnostic modalities used in the diagnosis, classification, and risk-stratification of genitourinary cancers.
- Appreciate the rapidly evolving therapeutic landscape across the spectrum of genitourinary cancers, including the increasing utilization of novel targeted, biologic, immunomodulatory, and cellular therapies.
- Identify impactful research findings that will inform future diagnostic, prognostic, and therapeutic strategies in genitourinary cancers.
