

The Label is the Law

10:15am – 10:40am

This session will discuss how you can ensure you provide applications for wood-destroying organisms safely.

Presented By: Andrea Brubaker, District Enviro Services

Vice President of Business Development at District Enviro Services. As a past president of MSPCA, Andrea continues to be a large supporter of the association and the Pest Management Industry as a whole. Andrea worked at Triple 'S' Services as an account executive and moved into a sales leadership role. She joined American Pest in 2018 when Triple 'S' was acquired. Andrea served as the Vice President of Business Development, was on the Public Policy Committee and Commercial Committee at NPMA, and was in the ELP Program with NPMA. Andrea received the NPMA's Woman of Excellence Award in 2020. She worked with high-end commercial and government clients to develop an Integrated Pest Management Program with safety and public health as a primary focus. After 22 years in the industry and as a certified applicator in Public Health, Andrea has a new career in steam & hot water pressure washing to help commercial properties improve sanitation and help prevent pest attractants and pest issues with proper sanitizing. District Enviro Services works in sensitive environments such as food handling and distribution sites, laboratories, and waste management areas.
