

## Give It a Shot

Barriers can blot your mind  
Your one escape is hard to find  
Unless of course, you change the tide  
You leave the place in which you bide  
You must go against the mainstream flow  
And from the darkness, you'll start to glow

If you run into a barrier, don't turn around  
You might just find it's easy to break down  
So come on, give it a shot  
It might be simpler than you thought

So do what only you can do  
Be completely free to just be you  
Don't be controlled by the stereotype  
If you love what you do it will feel just right

So don't be a fool  
And stay trapped in the walls  
Use your career as a tool  
And explore great new halls
