Principles and Application of a Limb Reconstruction Frame for the Diabetic Patient
Johanna F. Godoy, DPM

This special add-on session is a unique, advanced talk that will be limited to the first 12 registrants. It is recommended for advanced Stryker users who want to expand their skills in reconstructive rearfoot surgery. If you would like to add this session to your registration, please first register for the Podiatry Session at www.nyevs.org, and then email anegron@nycrpm.edu to request a special session spot. There is a \$25 add-on fee.

INDUSTRY-SPONSORED BREAKOUT STATIONS - Not accredited for CME

1:00 pm - **Three hands-on breakouts**
3:00 pm **focused on:**

- Dissection and application of placental based allografts in the advanced wound care arena
- Application of cyclical pressurized topical oxygen to acute and chronic wounds
- Discussion and ability to identify resistance antimicrobial and antifungal agents from wounds and biofilms, as well as identify genes through RNA-sequencing using NGS

SESSION II | MANAGEMENT OF THE DIABETIC FOOT

Moderators: *Wayne R. Axman, DPM and*
Michael J. Trepal, DPM

3:00 pm **Post Amputation Care: The Role of Orthotics and Shoe Gear Modifications**
Jeffrey J. Cusack, DPM

3:15 pm **Peak Pressure Assessment in Total Contact Casting**
Samantha Landau, DPM

3:30 pm **Oxygen Therapies for the Diabetic Foot** | *John J. Brummer, DPM*

3:45 pm **ER to OR** | *Robert Fridman, DPM*

4:00 pm **Healing Hallux Ulcers: Can a Keller Procedure Help?**
Daniel S. Yaeger, DPM

4:15 pm **Necrotizing Fasciitis Management**
Robert Fridman, DPM

4:30 pm **How To Code the Diabetic Foot**
Jeremy Bier, DPM

4:45 pm **Q&A / Discussion**

5:00 pm - **Resident Case Competition**
6:00 pm

Submit your interesting diabetic limb salvage cases for the opportunity to present at the symposium! The top three cases will receive a recognition award and great prizes, including Apple AirPods, Bluetooth speakers, and more.

Submit at nyevs.org
