

Bin Entry/Tech Rescue Training

August 21-24, 2018 | Check-in begins at 8:30 a.m. on Aug. 21

Hosted by: GEAPS - Seaway Chapter, Ohio AgriBusiness Association

Training by: SATRA (a pro-board accredited training institution)

Required Equipment for Bin Entry-Tech Rescue Training

The following list of equipment is **required** by SATRA and/or Sunrise Cooperative.

Firefighters:

1. Technical Rescue Helmet, traditional helmet's rear bill will interfere with rope and harness.
2. Class 3 Harness
3. Work Positioning Lanyard
4. Gloves - optional for ladder climbing
5. Eye protection - optional
6. Appropriate industrial footwear. Tech boots or work boots.
7. Jeans or tech pants
8. Hi-Vis shirt required, Hi-Vis vest will be available for use

If you have questions or need assistance before ordering equipment, call Bill Harp, CEO-SATRA at 313-415-4658.

Grain Personnel:

1. Hard hat with a chin strap, **chin strap is required**. The chin strap will secure your hard hat to prevent it falling from heights and possibly causing injury to someone below due to wind or looking down. *Chin straps will be available for \$2.00 each at the site.*
2. Harness. *Bring the harness you use. You might consider waiting to order a harness until after the training. What you learn about harnesses will be very helpful.*
3. Work Positioning Lanyard
4. Gloves - optional for rope handling
5. Eye protection - optional
6. Appropriate industrial footwear. Work boots.
7. Jeans or work uniform pants
8. Hi-Vis shirt required, Hi-Vis vest will be available for use
