

2012 Emergency Response Guidebook

DOT has announced the new 2012 version of the Emergency Response Guidebook (ERG) will be available in April. The 2012 version will replace the existing 2008 version.

In anticipation of their release, the Asmark Institute has pre-ordered a substantial volume of guidebooks. Because of this pre-order, we are able to offer a special "group" price for the new guidebooks. The group price is good while our supply lasts. The new 2012 guidebooks will ship as soon as the government releases the final revision.

\$1.85 each
(plus freight & tax)

Order Deadline
March 20, 2012

Numerically indexed and color-coded, the DOT Emergency Response Guidebook helps emergency responders find vital information fast. It's also a great tool to aid in emergency preparedness, planning and training.

The DOT requires hazardous materials shipments to be accompanied by emergency response information (49 CFR 172.602). The 2012 ERG can help you meet this requirement. A copy of the 2012 ERG should be placed in each vehicle that transports a DOT hazardous material.

Pocket-Size 4" x 5 1/2"

SATISFACTION GUARANTEED!

Return the guidebooks within 30 days if not satisfied.
