

Voting

“By voting in the elections, you’re able to have a say in what issues are going to happen for the country.”

- Gary Weidenborner

Why Vote?

Voting is the best way to express your voice.

- Your vote does matter - a close vote sends a strong message over a landslide victory.
- Every election is important and impacts your business.
- Local elections are especially important, as they greatly impact your day-to-day activities.

Preparing to Vote

Before you vote, make sure you’re prepared:

- Check your registration status and polling location
- Download a sample ballot for your district.
- Research candidates and issues in advance.
- Know early and absentee voting opportunities.
- Make sure you have necessary documentation.

Encourage Employee Voting

- Employers are encouraged to provide employees time and opportunity to vote in every election.
- Encourage employees to vote - but avoid implied support of any candidate or issue.
