

Ohio AgriBusiness Association Industry Excellence Awards Excellence in Safety & Stewardship

SPONSORED BY:

ABIS/J.H. Ward

Background

The OABA Industry Excellence Awards were implemented in 2017 for the purpose of honoring excellence, professionalism and achievement among OABA member companies and their employees, thereby encouraging that same excellence in others. As an underlying element of business, safety cannot be over-emphasized. Lack of attention of the safety of employees and customers can result in loss of life and business. Stewardship, too, is an extremely important aspect of the best management practices of today's agribusiness. Stewardship goes beyond responsible care of the environment. It means care of facilities, equipment and relationships to the benefit of all involved.

How To Apply

An accurate and honest evaluation of the applicant's business activities and performance is necessary to be considered for an OABA Award. All information provided in this application will be kept confidential throughout the selection process. To complete your entry, please follow these steps:

1. Answer all the questions in the application. There are questions for both the nominee and the person nominating.
2. Be as honest and forthright in your answers as possible. Personal views on safety will be important to the selection process. When forming your answers, assume you are speaking to a non-agriculture audience. Include as much detail as possible in the space provided. Spell out all acronyms on first reference.
3. Provide two (2) letters of recommendation from customers, managers or industry leaders.
