

Grain Facility Work and Rescue Training

August 20, 2024 (Tuesday) thru August 23, 2024 (Friday)

Hosted by: NW Ohio Grain Safety Training Center

Training by: SATRA (Safety and Technical Rescue Association)

Required Equipment for Grain Facility Work & Rescue Training

The following list of equipment is *required* by SATRA and/or NW Ohio Grain Safety Training Center.

Firefighters:

1. Technical Rescue Helmet, traditional helmet's rear bill will interfere with rope and harness.
2. Class 3 Harness.
3. Fall protection/prevention lanyard. (if available)
4. Gloves for rope handling.
5. Eye protection.
6. Appropriate industrial footwear. Tech boots or Work boots. Steel toes "not" required.
7. Jeans or Tech pants and T shirts.

If you have questions or need assistance before ordering equipment, call **Mike Harp, Operations SATRA at (855) 728-7250.**

Grain Personnel:

1. Hard hat with a chin strap. If you do not have a chin strap, a few will be for sale at the training site.
2. Harness - bring the harness you use. You might consider waiting before ordering a harness until after the training. What you learn about harnesses will be very helpful.
3. Fall protection/prevention lanyard (if available).
4. Gloves for rope handling. Will be tying knots in ropes and straps.
5. Appropriate industrial footwear. Work boots. Steel toes "not" required.
6. Jeans or work uniform pants and T shirts.
