## Ohio AgriBusiness Association Awards \$55,000 in Scholarships

COLUMBUS, OHIO (February 11, 2026) – The Ohio AgriBusiness Association recently awarded \$55,000 in scholarships to 36 students across Ohio through the OABA Educational Trust, the George Greenleaf Agri-Industry Endowment and the OABA Endowed Scholarship Fund. The OABA Educational Trust scholarship program annually awards scholarship dollars to students enrolled in an agriculture-related field attending The Ohio State University and Ohio State’s Agricultural Technical Institute, Clark State College and Wilmington College.

“Investing in students pursuing careers in agribusiness is an investment in the future strength of our industry,” said Melinda Witten, President and CEO of the Ohio AgriBusiness Association. “These scholarship recipients represent the talent, work ethic and leadership potential that will move Ohio our industry forward. We are honored to support their educational journey and look forward to the contributions they will make in the years ahead.”

### OABA Educational Trust

The OABA Educational Trust scholarship fund is supported by donations from OABA member companies, and through three primary fundraising activities: two *Golf for Scholarships* outings and a *Target: Scholarships* sporting clays event.

The 2026 fundraising events will include the *Golf for Scholarships* outings on June 10 at Deer Ridge Golf Course in Bellville and August 12 at Shelby Oaks Golf Course in Sidney, as well as the *Target: Scholarships* Sporting Clays event on September 11 at The Cardinal Center in Marengo. Proceeds from these events directly support future scholarship awards through the OABA Educational Trust.

This year, OABA awarded \$28,000 in scholarships to the following individuals.

### The Ohio State University Agricultural Technical Institute

- Garret Schlechter of Oberlin
- Noah Tietje of Deshler

-more-

### **About the Ohio AgriBusiness Association**

The Ohio AgriBusiness Association is the leading advocate for Ohio agribusiness, working to create a sustainable business climate through collaborative policy leadership, continuous education and effective communication. OABA is a membership-based state trade association representing manufacturers and wholesale/retail suppliers of plant nutrient and protection materials, the grain warehousing and marketing industry, the feed and seed industry, as well as companies providing equipment, financing, insurance, consulting and other agribusiness services. OABA also administers the Ohio Certified Crop Adviser Program, 4R Nutrient Stewardship Certification Program and the Ohio Agricultural Council. For more information, visit [oaba.net](http://oaba.net).
