## Implementing SBIRT in an Emergency Department Setting

Presented by Kettering Health Network

**SBIRT (Screening, Brief Intervention and Referral to Treatment) is a comprehensive, integrated, public health approach to the delivery of early intervention and treatment services for individuals who are at risk of developing substance use disorders, before more severe consequences occur. This free training, open to emergency department staff and hospital administrators, introduces the SBIRT method and provides an overview of implementation in an emergency department setting. [Click here for more information on the Kettering SBIRT Program.](#)**
