

2020 EM Resident Candidates for the Ohio ACEP Board of Directors!

JORDAN MILLER, DO Summa Health

My name is Jordan Miller. I'm originally from Illinois and have spent the last two years in southern Ohio. My residency experience has been filled with opportunities and challenges that I feel uniquely qualify me to serve on the Ohio ACEP Board. Not only have I gone through the process of changing specialties during residency, but I have also lived through the fear and uncertainty of having my program lose accreditation. Thanks to the Ohio Emergency Medicine community I was able to join a new program and will be part of the inaugural class of the new emergency medicine residency at Summa in Akron. I decided to run for a leadership position in Ohio ACEP because I have immensely appreciated the way the EM community came together for me and want to give back. While my first two years of training have been quite turbulent, I feel I can offer a unique perspective to the board and advocate for residents going through similar situations. Thank you for your time and consideration.

CRYSTAL NOCK, MD

Mercy Health St. Rita's

I am honored and excited about the possibility of representing my fellow residents on the Ohio ACEP Board of Directors. Since joining as a medical student I have been an active member of EMRA and ACEP. I have participated in several activities including volunteering at SIM Wars and Research Forums during ACEP meetings. Annually, I participate in the EM Day of Service. I have had the opportunity to hone my leadership skills after attending and graduating from the Leadership Academy at EMRA. I have also been an active member on several hospital committees and improvement projects.

I like to stay active in my community and advocate for others. We have all worked very hard to become resident physicians and while still early in our careers we can make a big impact! I would like nothing more than to make sure our voices are heard. I plan to be easily accessible for emails regarding concerns and participate in an effective responsible manner if chosen for this important position. Thank you very much for your consideration.

KELSEY QUIN, DO

Grandview Medical Center

Thank you so much for considering me for the position of Resident Representative to the Ohio ACEP Board. I am extremely passionate about servant leadership, health policy reform, and long term strategy and planning. I have served on the Board of Trustees of Purdue University as well as the Board of Trustees of the Indiana State Medical Association, and have enjoyed various leadership roles including but not limited to medical school class president, advisory member to the Indiana Commission for Higher Education Graduate Medical Education Board, and Gold Humanism Honor Society president. I also currently serve on the Resident Advisory Committee for Kettering Health Network. I grew up in a circus where I learned just how important effective communication is, and I also believe in critical thinking and empathy being applied to understand all perspectives on any position or outlook. I enjoy meeting new people and working together to improve current environments; I think we have been given the tools to build a better world and I want to do my part each day. I would be honored to serve my fellow residents in this capacity, and would love to answer any questions you may have! Thank you again for your time and consideration.

ABBEY SMILEY, MD

The Ohio State University Wexner Medical Center

In the climate of the current COVID-19 healthcare crisis and the need for social justice, the role of Ohio ACEP's Resident Representative is important now more than ever before and I am humbled to have the opportunity to run for the position. As we have progressed through recent months, COVID-19 has lifted the veil on many of the United States' greatest healthcare failings and has underscored the need for strong, progressive voices to challenge the status quo. As Ohio ACEP's Resident Representative, I will endeavor to create a united voice for residents as we continue to face new and unparalleled circumstances. I will use my position to lobby for protections for residents including appropriate access to PPE, non-prejudiced access to mental healthcare, and the advisement of special protections for pregnant and otherwise medically vulnerable residents when caring for COVID-19 patients. Further, I will support policies that protect our unique roles as physicians. I hope to accomplish this not only by bringing my leadership experience to the Ohio ACEP board, but also by creating a collaborative virtual forum for Ohio Emergency Residents to discuss concerns facing residents, our patients, and the public with the goal of facilitating the exchange of ideas and increasing lobbying power of Emergency Physicians state-wide. We are residents in a time of pivotal change, and the future that lies ahead will be a result of our action or inaction. This is the time for us to raise our voices together, and I hope you will choose me to represent you. Thank you for your consideration.
