

# QIPS Resident Quality & Safety Award

Submission Deadline: **August 1, 2014**

The Quality Improvement & Patient Safety (QIPS) Resident Quality & Safety Award, established in 2010, will be presented to a resident or residents with outstanding innovations in advancing Quality and/or Safety. Recipients of the award will receive a free 1-year QIPS membership, publication in the QIPS Newsletter and recognition at the 2014 ACEP *Scientific Assembly* in Chicago, IL!

Projects will be judged on their overall importance, innovation, outcomes and applicability to Emergency Medicine practice. It is strongly encouraged that applicants submit work that is complete or near complete and shows evidence of benefit to the EM Community and the patients served. Past winners have included projects on hand hygiene, chest pain management and process improvement practices in auditory telemetry warnings. Submissions revealing quality and safety improvements, whether locally, regionally or nationally are of key interest to QIPS. Applications and winner(s) have a unique forum to more broadly disseminate their important work, potentially widen their collaborative partnerships and join QIPS. QIPS is a very active ACEP Section with over 400 members dedicated to innovating and collaborating on efforts to advance and improve patient care.

**\*\*This form must accompany each nomination.\*\***
