Your residents count on you. **YOU CAN COUNT ON US.**

Since 1941, Goodman-Gable-Gould/Adjusters International has been the premier public adjusting firm for assisted living communities. When disaster strikes (fire, water, storm, or business interruption), we handle the recovery:

- Protect residents and minimize disruption
- Restore safe environments quickly
- Expertly measure damages and negotiate with your insurer

**YOU CARE FOR YOUR RESIDENTS,
WE CARE FOR YOUR RECOVERY.**

Increasing Senior Living Occupancy Through Trust

Senior care communities across the country are striving to not only provide the best person-centered care and services, but are always working on the necessity that is occupancy. Operating half-full communities does nothing to maximize the environment, culinary services, quality of life activities, staffing, or anything else. But, how does one community compete with so many that provide the same or similar amenities? The answer is one word – trust.

SUCCESS STORY:

A ViaQuest client was admitted to a long-term care facility after nearly losing his life to sepsis and pneumonia. He recalled arriving unable to walk, feeling confused, and "never in a good mood." Adjusting from living in a big house with nice cars to one room and giving away his belongings was difficult, and he became very depressed. While working on regaining his physical strength, he still didn't feel "up to par." Once he began receiving **ViaQuest's wraparound services**, he felt more comfortable sharing things he hadn't in years. Over the past year, with ViaQuest's help and the facility staff, he no longer needs a wheelchair and walks the halls freely. Now, he's president of the resident council and a strong advocate for others. He's proud to share the article he co-wrote with staff about his and his wife's "love story." **Smiling, he told the ViaQuest team, "I can't believe I made it this far."**
