

## FIRE OFFICER II PROGRAM HOSTING SPECIFICATIONS

This course builds on the experience learned in the Fire Officer I class and is step 2 in preparing Ohio's Fire & Emergency Services Leaders for the challenges facing them tomorrow. The Fire Officer II program requires team work, group projects, application, analysis and synthesis. As the officers attain the rank of Fire Officer II, their responsibilities include the management and leadership of multiple projects and companies. It is essential for the Fire Officer II to be able to prioritize the multiple demands on the time of the organization, the companies, the crews and the teams by working in groups. Time management is essential.

All of our instructors are officers with many years experience. There are no firefighters teaching firefighters. Fire departments participating in this program get better trained officers. However, in order to deliver this prestigious course, certain specifications must be met. They include:
