

The Ohio Fire Chiefs' Association Hosts "Crisis Awareness Training"

*Presented by Steven Click, First Responder
Liaison, Ohio Mental Health & Addiction Services*

The two-day Winter Symposium is a great way to network with members of the Ohio Fire Chiefs' Association, but is also the perfect opportunity to pick up some new information - or have a refresher on topics you may already be familiar with.

In conjunction with the Winter Symposium, the OFCA is hosting **Steven Click**, First Responder Liaison, Ohio Mental Health & Addiction Services.

We have TWO sessions available - **Tuesday, March 3, 2020 from 8:30 AM - 11:30 AM** OR **Wednesday, March 4, 2020 from 1:00 PM - 4:00 PM** at the *Ohio Fire Chiefs' Association Training Facility*.

You do not have to be attending the Winter Symposium to attend the workshop.

Crisis Awareness Training provides participants possible physical examples of physical and emotional signs that a co-worker, family member, friend, or the employee themselves may be in crisis after a traumatic event. This can be brought about by an incident at work, in their personal life, or as the result of the cumulative effects of exposure to traumatic situations. Everyone's reactions to trauma are unique to that person, but this course gives some possible signs and symptoms, as well as techniques, to help someone who may benefit from assistance.

Issues discussed include: physical, cognitive, and emotional responses to trauma; alcohol/drug issues; techniques and strategies for working through the effects of a traumatic incident.

COST: Free for OFCA Members

Ohio Fire Chiefs' Association Training Facility
450 W. Wilson Bridge Road; Suite 160
Worthington, OH 43085
