

## The Challenge:

- ✓ **Labor Shortages:** It is always difficult to staff the hotel. That difficulty is even more exacerbated now with widespread labor shortages.
- ✓ **Cleanliness:** There is a greater demand for clean, and proof of clean, in today's environment. With limited staff, it's difficult to meet the cleanliness standards that guests expect and deserve.
- ✓ **Guest Experience:** You're constantly evolving to meet and exceed guest expectations to gain referrals, improve guest experience and stand apart from the competition.
- ✓ **Guest Reviews:** You are looking for ways to improve your guest scores on review platforms to encourage other guests to stay at your property.

## The Solution:

What's the next step in your hotel experience ecosystem? **Reassurance.**

- ✓ **VISIBLE**

in overall  
cleanliness

**8X**

Improvement  
in dust control

**50%**

Cleaner floors  
compared to  
manual vacuuming

Confirmation  
of clean

"The hotel was very nice and clean. The staff was super helpful and friendly. This is the only place I'll stay from now on when in Gilroy."

- Rebecca L, 2019, Tripadvisor

"The team couldn't be happier with Whiz. The results have far exceeded our expectations. It really allows us more time to take care of the small details..."

- David, General Manager, Fortune 500 Hotel Brand

Hotels across the country have deployed whiz in their **hallways, conference areas, and common areas.**
