HOW SITTING WRECKS YOUR BODY

As Soon As You Sit:

Electrical activity in the leg muscles **shuts off**

Calorie burning drops to **1 per minute**

Enzymes that help break down fat drop **90%**

After 2 Hours:

Good cholesterol drops **20%**

After 24 Hours:

Insulin effectiveness drops **24%** and risk of diabetes rises

People with **sitting jobs** have **twice the rate** of cardiovascular disease as people with standing jobs.

How to sit ergonomically correct

WRISTS

Hands and fingers should be in line with your forearms, not angled up or down or left or right. A keyboard wrist rest can help reduce strain (but should actually support the heel of your palm, not your wrist).

ARMS

When typing, wrists and hands should be at or below the height of your elbows. (If your desk is too high for that, raise your chair or get an under-desk keyboard tray.) Armrests should support your forearms while your shoulders are relaxed and elbows are at your sides.

BACK

The chair's lumbar support should be positioned to maintain the natural curvature of your lower spine. If your chair lacks adjustable lumbar support, consider getting a lumbar support pillow (from \$20).

EYES

The top of the screen should be at or slightly below eye level (or lower if you wear glasses with bifocal or progressive lenses). The monitor should be about an arm's length away.

LEGS AND FEET

You want an inch or two of space between the back of your knees and the front of your seat. (If your seat is too long for that, try layering towels over the backrest.) Feet should rest flat on the floor or, if necessary, on a footrest or stool.

Recommendations & Tips To Help You Focus

Can You Multi-Task?

Research is pretty clear on this: (you can't)

- ▶ We can focus on 1 or 2 things at a time
- ▶ “Super taskers” are rare (2% of population)
- ▶ If you think you can multi-task, see
 - ▶ <http://tinyurl.com/ph3e5w2> **x** or
 - ▶ <http://tinyurl.com/od8yctq> **x**

Penalties of Multitasking

“Research demonstrates that when someone multi-tasks, **work actually takes longer and the quality is inferior**. A 2005 study by Hewlett-Packard found that workers who were continually distracted by e-mail and phone calls showed **an effective drop in IQ equal to twice that of those using marijuana**.”

- The Myth of Multi-Tasking by Rich Largman

Maybe you are gluing a [rear view mirror](#).

💡 Whenever you are gluing glass you must consider the visibility of the adhesive. If the glass is translucent or transparent, you will want a glue that dries as clear as possible.

💡 Whenever you are gluing metal it's a good idea to clean it first with steel wool or sandpaper. (Rust never sleeps.)

💡 Before gluing any glass bond be sure that the glass is clean, free of any oil (even from your fingers) and dry.

There's a Nap for That

The Productivity Boosting Nap Pod

This is the pod that helps boost productivity by providing a rejuvenation space for taking 20-minute naps. Shown by NASA studies to improve concentration by 34%, power napping has been widely embraced by the world's most progressive companies as beneficial for well being. The pod's contoured, cushioned bed provides optimal ergonomics for napping by elevating the feet, relaxing the lower back, and slightly bending the knees, all of which promote blood circulation. Its spherical dome enclosure provides semi-privacy; a privacy visor provides additional seclusion. Controlled at the armrest, a built-in timer is set to a pre-programmed 20-minute nap, but can be set to any preferred nap time. A suite of ambient rhythms plays through the built-in 200-watt Bose speaker (or headphones jack) to eliminate surrounding distractions. The pod gently wakes nappers with slowly brightening light and vibration, minimizing grogginess. White glove delivery. Special conditions and guarantee limitations apply. 60" L x 57 1/4" W x 48" H. Great Apps Baked Into

- ▶ **Alarms & Clock:** This is a stopwatch, alarm and timer. The World Clock will tell you what time it is anywhere else in the world.
- ▶ **Calculator:** Much better - can calculate dates, currency conversions
- ▶ **Camera:** Just like the app on your phone and it can use the camera built into your laptop or any external webcam.
- ▶ **Maps:** This is based on Bing Maps and is pretty impressive.
- ▶ **Money:** Free from the Microsoft Store. This app provides financial news from MSN. In addition to financial news, you can also track stocks, currencies, market fluctuations, and it includes a handy mortgage calculator as well.

Great Apps Baked Into

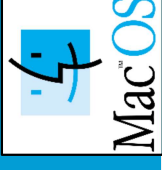

- ▶ **Movies and TV:** Here, you can rent or buy movies or TV shows/series. It's not an all-you-can-eat subscription like Netflix, but it has over 500,000 movies and TV shows.
- ▶ **Microsoft News:** This wasn't installed in my Windows 10 Pro by default, but it's free from the Microsoft Store. It is essentially Microsoft's MSN News in the form of an app. You can customize what it shows you.
- ▶ **Quick Assist:** Click search and type quick assist. This allows you to help others or receive assistance.
- ▶ **Snip & Sketch:** Much better screen-shot tool than the old snip tool.

Great Apps Baked Into

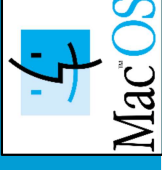

- ▶ **Speech Recognition:** Works everywhere in Windows
- ▶ **Sticky Notes:** Great way to take notes - you can format the text and change the colors of the notes; and they're all searchable. Just click the search box and type "sticky" and you'll see it in the list as an app.
- ▶ **Voice Recorder:** You can record and play back in this free app. Of course, it requires a microphone.
- ▶ **Weather:** This is a really nice weather app that pulls data from MSN. You can allow it to access your location and you can add other locations as well.

Great Apps Baked Into

- ▶ **Books:** Get and read classics and bestsellers, listen to audiobooks, or study textbooks.
- ▶ **Find My:** See the location of your friends, devices, and items.
- ▶ **GarageBand:** A fully equipped music creation studio right inside your Mac.
- ▶ **Maps:** Get directions, traffic conditions, and public transport details.

Data Wiping Software

DBAN is free erasure software designed for the home user. It automatically deletes the contents of any hard disk that it can detect. This method can help prevent identity theft before recycling a computer. DBAN is also a commonly used solution to remove viruses and spyware from Microsoft Windows installations.

However, DBAN users should be aware of some product limitations, including:

- No guarantee of data removal (e.g. DBAN does not detect or securely erase SSDs)
- No audit-ready reporting for regulatory compliance
- Limited hardware support (e.g. no RAID dismantling)
- No customer support or regular software updates

Professional data erasure tools are recommended for company and organizational users. For secure data erasure with audit-ready reporting, [contact Blancco](#) or [download a free evaluation license](#).
