Course Description

Participate in an interactive osteopathic manipulative medicine (OMM) course designed to cover:

- Accurate and easy diagnosis of Back Complaints with Focused Treatment
- Efficient and effective diagnosis and treatment sequencing in the clinical setting

This program will include a mini-course on:

- Scanning and segmental definition with upper and lower body treatment sequences
- Easy ways to apply the diagnosis using Muscle Energy and Functional Methods/Facilitated Positional Release

Join us for a relaxed, enjoyable day networking with colleagues and fellow osteopathic physicians at an HCOM Campus in your area, learning OMM techniques you can use to treat your patients the very next day.

Learning Objectives

- Participants will learn and apply efficient accurate palpatory diagnostic skills for osteopathic manipulative medicine.
- Participants will learn basic sequencing protocols that help decide where to start with patients having multiple levels of somatic dysfunction.
- Participants will learn a functional methods approach to treatment of diagnosed dysfunctions using both direct (muscle energy) and indirect (functional methods/facilitated positional release) methods.
