Glossary

Common & public space: The central nervous system of the building, these spaces encourages engagement and idea sharing.

Instructional classroom spaces: These flexible, technology-rich, student-centered spaces are focused on active learning.

Office | workplaces: An extension of our commitment to foster collaboration, these spaces are designed to serve every kind of meeting, collaboration or conversation need.

Student spaces: Comfortable, home-like spaces provide places where students may relax, study, connect and collaborate.

Clinical learning: Flexible lab spaces that connect academic hands-on learning activities to real-world clinical experiences.

Clinical support: Space to accommodate support activities for clinical learning activities.

ALC: Active Learning Classroom

SGA: Student Government Association

Sim: simulation

PCA: Primary Care Associates

OMM: Osteopathic Manipulative Medicine
