## Reference: Ohio State Board of Pharmacy seeking information

The Ohio Board of Pharmacy has noticed a significant volume of prescriptions from physicians in Florida and is seeking more information. The physicians are primarily located in Ft. Lauderdale, Boca Raton, or Hollywood, Florida, but they are prescribing for patients from Ohio and Kentucky. Several, but not all, of the physicians are associated with the "American Pain Clinic LLC." The prescriptions are written for oxycodone 15 or 30 mg, Roxicodone 15 or 30 mg, Xanax 2 mg, Soma 350 mg, and Percocet 10/325 mg. These patients are generally 20-55 years old and usually pay cash.

If you see any of these prescriptions for individuals other than those few "snowbirds" who are part of your regular patient base, please contact Agent Bill Padgett at 740/342-2570 as soon as possible.

Remember, before filling any prescription, the pharmacist must take into consideration 4729-5-30, OAC, Manner of issuance of a prescription; and 4729-5-21, OAC, Manner of processing of a prescription. These rules state, in part:

- (A) A prescription to be valid must be issued for a legitimate medical purpose by an individual prescriber in the usual course of his/her professional practice. The responsibility for the proper prescribing is upon the prescriber, but a corresponding responsibility rests with the pharmacist who dispenses the prescription. An order purporting to be a prescription issued not in the usual course of bona fide treatment of a patient is not a prescription and the person knowingly dispensing such a purported prescription, as well as the person issuing it, shall be subject to the penalties of law.

In many of these cases, we are wondering how the term "legitimate medical purpose" applies when a patient who is supposedly in severe pain can ride to Florida and back to receive treatment when we have excellent facilities in Ohio.

If you decide in your professional judgment not to fill the prescription and are comfortable keeping the original prescription, please do so if you can. Advise the individuals that they must contact Agent Padgett regarding their prescriptions and provide them with his telephone number. If you are not comfortable keeping the prescription, then at a minimum, please copy the prescription, return it to the individual, and contact Agent Padgett ASAP.

If you have already filled such prescriptions, please contact Agent Padgett at [Bill.Padgett@bop.ohio.gov](mailto:Bill.Padgett@bop.ohio.gov) or 740/342-2570. Based on some of the cases we have already found, this may be a coordinated effort to obtain drugs and we are trying to develop a list of the people involved.
