

APhA's Pharmacy-Based Immunization Delivery certificate training program

Monday, September 9, 2024

Ohio Pharmacists Association • 2674 Federated Blvd. • Columbus, Ohio 43235

Ohio Pharmacists Association, an APhA licensed partner, is offering *APhA's Pharmacy-Based Immunization Delivery certificate program*. The program is based on national educational standards for immunization training from the CDC. This practice-based curriculum represents a fusion of science and clinical pharmacy. The program, which emphasizes a health care team approach, seeks to foster the implementation of interventions that will promote disease prevention and public health. The purpose of this certificate training program is to prepare pharmacists and student pharmacists with comprehensive knowledge, skills, and resources necessary to provide immunization services to patients across the life span. It is comprised of a 12-hour home-study and an 8-hour live training, this program provides a total of 20-hours of CPE credit for pharmacists.

Goals and Learning Objectives

- Educate pharmacists about the impact of vaccines on public health, pharmacists' role in immunization, immunologic principles of vaccine development and immunizations, vaccine-preventable diseases and the vaccines used to prevent them, strategies for improving immunization rates, and requirements for pharmacists who provide immunization services.
- Prepare pharmacists to read an immunization schedule and identify appropriate vaccines for individuals across the life span and with special needs, educate patients about the benefits of vaccines and dispel myths about vaccines, safely administer vaccines to patients via subcutaneous, intramuscular, intranasal, and intradermal routes, operate an immunization service in compliance with legal and regulatory standards, and partner with immunization stakeholders to promote immunizations and the immunization neighborhood.
- Direct pharmacists to resources necessary to promote public health through immunizations, access regularly updated information about vaccines and their use, effectively communicate with patients and other stakeholders about resources, and operate an immunization service in compliance with legal and regulatory standards.

For the full list of goals and objectives, please visit APhA's website, [APhA's Pharmacy-Based Immunization Delivery](#).
