

2014 OPA Midyear Meeting Program Learning Objectives

ACPE #0129-0000-14-076-L01-P

Congestive Heart Failure: Symptoms, Causes, and Treatment

Aimee Wallace, R.Ph., PharmD

At the completion of this activity, the participant will be able to:

1. describe the signs and symptoms of heart failure;
2. identify potential causes of congestive heart failure;
3. classify the functional status of patients;
4. demonstrate an understanding of nonpharmacologic treatment; and
5. analyze cases for appropriate pharmacological treatment.

ACPE #0129-0000-14-077-L03-P

2014 Review of Ohio Pharmacy Law

Terri Ghitman, R.Ph.

At the completion of this activity, the participant will be able to:

1. explain the process of passing new laws;
2. describe the process of implementing new/updating existing board of pharmacy rules; and
3. discuss new rules affecting pharmacists and pharmacy practice.

ACPE #0129-0000-14-078-L01-P

A Review of ADHD Prescribing Guidelines: Sit Down, Focus, and Listen

Kayla Durkin, R.Ph., PharmD

At the completion of this activity, the participant will be able to:

1. identify important patient characteristics for guiding ADHD therapy recommendations;
2. discuss the current prescribing guidelines for ADHD; and
3. recognize the differences in dosage form and cost of common ADHD therapies.

ACPE #0129-0000-14-079-L01-P

Advances in Diabetes Management: Insulin Pumps and Newer Therapies

Christopher Westrick, R.Ph., PharmD

At the completion of this activity, the participant will be able to:

1. explain the advantages and disadvantages of insulin pump therapy;
2. discuss the differences in commonly used insulin pumps; and
3. describe newer therapies on the horizon

ACPE #0129-0000-14-080-L01-P

Ebola and Other Tropical Diseases in the News

Charles Mosler, R.Ph., PharmD, CGP

At the completion of this activity, the participant will be able to:

1. describe the symptoms of an Ebola patient;
2. review the current treatment of Ebola;
3. describe personal protection, transmission, and the role of isolation in treatment/containment;
4. discuss current research on Ebola treatments and vaccines; and
5. compare other tropical diseases to each other and Ebola.

ACPE #0129-0000-14-081-L03-P

Red Flags of Drug Diversion

William T. Winsley, R.Ph., MS

At the completion of this activity, the participant will be able to:

1. describe the pharmacist's duties and responsibilities when presented with a prescription for dispensing;
2. discuss some of the issues a pharmacist may want to consider before filling a prescription; and
3. identify common red flags of diversion; and
4. discuss how to appropriately "say no" when a prescription is not valid.

ACPE #0129-0000-14-082-L05-P

Falls Prevention: A Team-Based Approach

Sara LaBella, R.Ph., PharmD and Tiffany Johnson, PT, DPT

At the completion of this activity, the participant will be able to:

1. recognize the cause(s) of frequent falls;
2. discuss recommendations for fall safety;
3. describe physical therapy interventions for fall risk patients;
4. identify falls in the elderly as a significant cause of morbidity and mortality;
5. describe the pharmacokinetic and pharmacodynamics differences between adult and geriatric patients;
6. apply the Beers and START/STOPP criteria to a patient case; and
7. recognize when to involve other health professionals in a patient's care to prevent falls.
