

# Population Health IPPE Experience

THE OHIO STATE UNIVERSITY & KROGER HEALTH CONNECT

## Rotation Set-Up:

- 24 Hour Rotation for P2 Students
- Focused on Motivational Interviewing in a telepharmacy population-health setting

## Learning Goals:

- Apply foundational knowledge from didactic curriculum
- Learn basic skills/attitudes in this setting
- Enhance verbal communication

## Student Experience:

- Improved confidence in communication
- Positive contribution to patient care outcomes
- Percieved readiness for nontraditional practice settings

## Lessons Learned:

- Student preparation for “real-life” patient interactions is key
- Confidence building before patient interactions supports positive engagement
- Built-in breaks for preceptors between student groups is beneficial
