Overview

ABOUT THE OPPIA

Founded in 1950, the Ohio Psychiatric Physicians Association is a statewide medical specialty organization whose more than one thousand physician members specialize in the diagnosis, treatment and prevention of mental illnesses, including substance use disorders. Psychiatric physicians utilize a variety of treatment options including psychotherapy and pharmacotherapy to effectively treat the dynamic, social and physical aspects of mental illnesses (brain disorders). The Ohio Psychiatric Physicians Association is a district branch of the American Psychiatric Association, which was founded in 1844 and represents more than 35,000 psychiatric physicians nationally.

ANNUAL PSYCHIATRIC UPDATE

Each year in the Spring, the OPPIA sponsors its annual Psychiatric Update to provide education on a broad spectrum of topics of clinical interest and relevance to psychiatrists, other non-psychiatrist physicians (like primary care physicians and pediatricians) and other mental health professionals. What better way to promote your company and make psychiatrists aware of the products and services than to help advance and support the skills that help make psychiatrists vital medical specialists! We hope you will join us as a supporter, exhibitor or both.
