

Jeff Strawn, MD is an Associate Professor of Psychiatry and Pediatrics at the University of Cincinnati and at Cincinnati Children's Hospital. He earned a bachelor's degree in biology at the University of Kentucky and then his M.D. from the University of Cincinnati. He completed general psychiatry residency training at the UC and a clinical fellowship in child and adolescent psychiatry at Cincinnati Children's Hospital.

His research focuses on anxiety disorders and risk factors for these conditions as well as on the pharmacologic treatment of these disorders. With his collaborators, Dr. Strawn uses functional neuroimaging, pharmacogenetics and pharmacologic approaches to identify early predictors of treatment response and medication tolerability in anxiety disorders. In his clinical practice, at Cincinnati Children's Hospital, he works with youth with anxiety and related disorders and with their families and supervises residents and fellows.

Dr. Strawn has authored 130 peer-reviewed publications and co-authored two textbooks on the treatment of children and adolescents and on contemporary psychotherapy. He is a distinguished fellow of the American Academy of Child & Adolescent Psychiatry and has received multiple awards for teaching, mentorship and research.
